GRAIN MARKET CLOSED WEAK

REPORTS FROM INDIA START WHEAT STRONG AT OPENING.

Corn and Oats Take a Slump-Squeeze in July Shorts a Feature of the Oats Market - Provisions Dull and Easier.

CHICAGO, July 29.—Wheat inst an early advance of 55c to-day, and closed weak at a decline of 1,654c. Corn lost 55c, sats 5c, and provisions lost 25c975c, the latter in pork. the latter in purk.

Apprehensions of frest, higher cables from Liverpool and reports of lark of moisture in India caused a firm and higher opening in wheat. September started \$4.5% higher at 15.50711c. Transactions at Thick were extremely light, and the market immediately sank on heavy realisting and sales against calls. Before 11 o'clock September touched 794.6% 705c. Indian shipments of 1.4% 900 bushels, with estimated world's shipments (\$5.00,000 bushels, with week, more than offset learn of frost in the spring wheat belt. Becelpis at Krimary Western markets were \$90,000 bushels, argainst £27,000 bushels list year. Minneapolis and Fuluth received 344 cars, against \$195 cars yesterday and 179 a year ago. On the early decline there was considered 344 cars, against \$195 cars yesterday and 179 a year ago. On the early decline there was considered 344 cars, ago which, together with buying against puts, caused a sharp rally to 71% 6711kc for September The strength was short lived, however, and just before the close September again touched 70%c, closing with sellers at 70% 971c. Atlantic part clearances were \$44,455 bushels, wheat and Bour.

Corn ruled weak throughout on reports of heavy rains in the Southwest, which dissipated all fears of drouth. Receipts here were \$60 cars. Cash track (\$0.000 bushels being worked here for expect. Country offerings were large, and elevatur representatives soid treely against country porchases. Esptember opened unchanged to ½c lower at \$15.6c.

A sounces of July shorts was the feature of the oats market. July was forced up 1840, and closed strong at 20c after selling as high as 27c. September was dull and featureless. Local receipts were as cars. September opened steady at 1840, declined to and closed at 1840. The July option is entirely under the control of a leading local professional who took advantage of the light country offerings to-day to run up the market on those who are presumably short to him.

Provisions ruled dull and slightly easier on light country liquidation. Fackers were credited with selling on a moderate scale, but the trade generally appeared to be in a waiting mood. September park appeared to be in a waiting mood. September park appeared to be in a waiting mood.

Gold reserve yesterday \$244,919,555.

The New York bank statement Saturday showed a decrease in loans of \$8,334,500, in deposits of \$18,739,200, in specie of \$4,241,400, in legal tenders of \$157,500, and in the surplus reserve of \$1,244,475, making it new \$10,811,115 above the 25 per cent rule.

W. F. Wyman is just back from several weeks' vacation in New England. He says the manufacturers there are more prosperous than for many years, and nearly everyone is making some money. Of course, the development of manufactories in the South and West in recent years has brought them new competition, and they are not doing the volume of business of years ago, when they had something of a monopoly. Yet they are all doing well, and the people in that section again feel kindly toward the West, and especially Kansas City.

put new life into the home cattle market. Where buyers early this spring were bidding \$2 per head less for cattle on the range than last year, now they are selling \$2 per head higher, and no great number are to be had even at this advance. As everybody wants to feed, the home prices of cattle are so high as to check marketing for a time, and thin and medium fleshed cattle are expected to bring more money to home feeders than on the parket.

The Gillett scare seems to have died out and ranch properties are again attracting the attention of moneyed men. J. N.
Swazey, the banker of Bucksport, Me., who has been on a visit to his brother, E. L.
Swazey, of the stock yards, in connection with him closed yesterday the purchase of a 5.000-acre ranch in Elk county, Kas., with 1.000 3 and 4-year-old steers on it, for \$65,-000. There is also on the place a breedling herd of 200 Herefords and Shorthorns which they are to get. There is 800 acres in corn and 500 acres in roughness and the steers above will be fed freely from the above crops this fall.

OLD APPROVED METHOD. losquitoes Believe in Large Families and Bring Them Up by Dozens.

From Ainslee's Magazine. Mosquitoes believe in the good old fashion of large families. Well they may; they don't have to raise them. There is no walking the floor nights with the youngest, or sitting up to mend stockings; no worrying about the second summer-you now if you bring them through the second summer all right—there is no scheming to put Tom through Harvard or Dorothy

to put Tom through Harvard or Dorothy through Vassar. It is very simple. Mamma lays from twenty to forty dozen eggs in some quiet pool along about 3 o'clock in the morning and considers her duty amply done.

The inherited experience of ages has taught her that it is best to mass them together in a pointed ellipse slightly concave on the top, the eggs being little end up. The air so sticks to the mass that it is impossible to wet it. In sixteen hours the larvae come out on the under side and begin a most active existence. They are begin a most active existence.
